**PREGNANCY WARNING AND CONSENT TO X-RAY**

---

I understand that if I am pregnant and have x-rays taken which expose my lower torso to radiation, it is possible to injure the fetus.

I have been advised that if there is a chance that I might be pregnant, the 10 days following onset of a menstrual period are generally considered to be the safest time for an x-ray examination.

With full understanding of the above, and believing that I am not currently at risk, I give the doctors of Petroy Chiropractic & Wellness, LLC the permission to perform an x-ray examination on me if they feel it is necessary.
